PROFILE

Leonard Bierman & Associates, Inc. - President - 20 years

Graymark Security, Inc., Miami, Florida - Executive Vice President/COO - 22 years
Duties included conducting incident-specific examinations and overseeing the work product of thirty-five examiners.

National Polygraph Institute - Director - a certified polygraph school

Excerpts 2005 to 2008

Practice limited to evidentiary testing.

Conducted over 500 evidentiary polygraph examinations over the past three years and has been repeatedly called upon to provide expert testimony in criminal and civil cases, both Daubert and Frye Hearings.

Has provided polygraph testimony in three different capital murder cases on behalf of the defense in which someone else subsequently confessed to the crime. Based on my findings, there have been dozens of cases nolle proequi, dismissed or filings withheld and sentencing hearings influenced in cases running the gambit from petty theft to homicide.

As the Examiner of Record, was instrumental in favorable resolutions in two of the 100 largest civil adjudications in the United States during 2006. My findings also helped clear police officers of unjust complaints and Internal Affairs Investigations. Was the Examiner of Record in some of the most media-intensive cases including America's Most Wanted "Disappearance at Sea". Conducted examinations to confirm/dispute facts involving current Hall of Fame members in MLB, NBA and NFL.

Served as a contributing member of the American Polygraph Association's "Daubert" Committee, which resulted in a Daubert testimony model for use in the introduction of polygraph testimony in Federal Court.

Conducted several Continuing Legal Education classes and seminars on polygraph and its admissibility.

Independent evaluation by the Department of Defense Polygraph Institute of decision accuracy*.

Recognized on many occasions by the justice system as an expert in polygraph.

Polygraph Examiner of 40 years. Over 30,000 examinations conducted - 15,000+ specific incident exams of major crimes, felonies, misdemeanors, civil litigations and mediations

*Independent evaluation by the Department of Defense Polygraph Institute of decision accuracy of three hundred polygraph charts scored "blindly" (not having the benefit of questions or case fact). Score of 93%, which was second to the highest recorded and reported score
